# Environmental Foundation

Established in 1990, the Foundation focuses on global environmental conservation efforts. Our Foundation intends to build a new sustainable relationship where people and nature coexist in harmony. In these and many other ways, the Foundation continues to promote activities to leave our beautiful, life-filled planet for future generations.

## **Representative Activities**

### Tree planting

Planting trees around the world to regenerate lost greenery

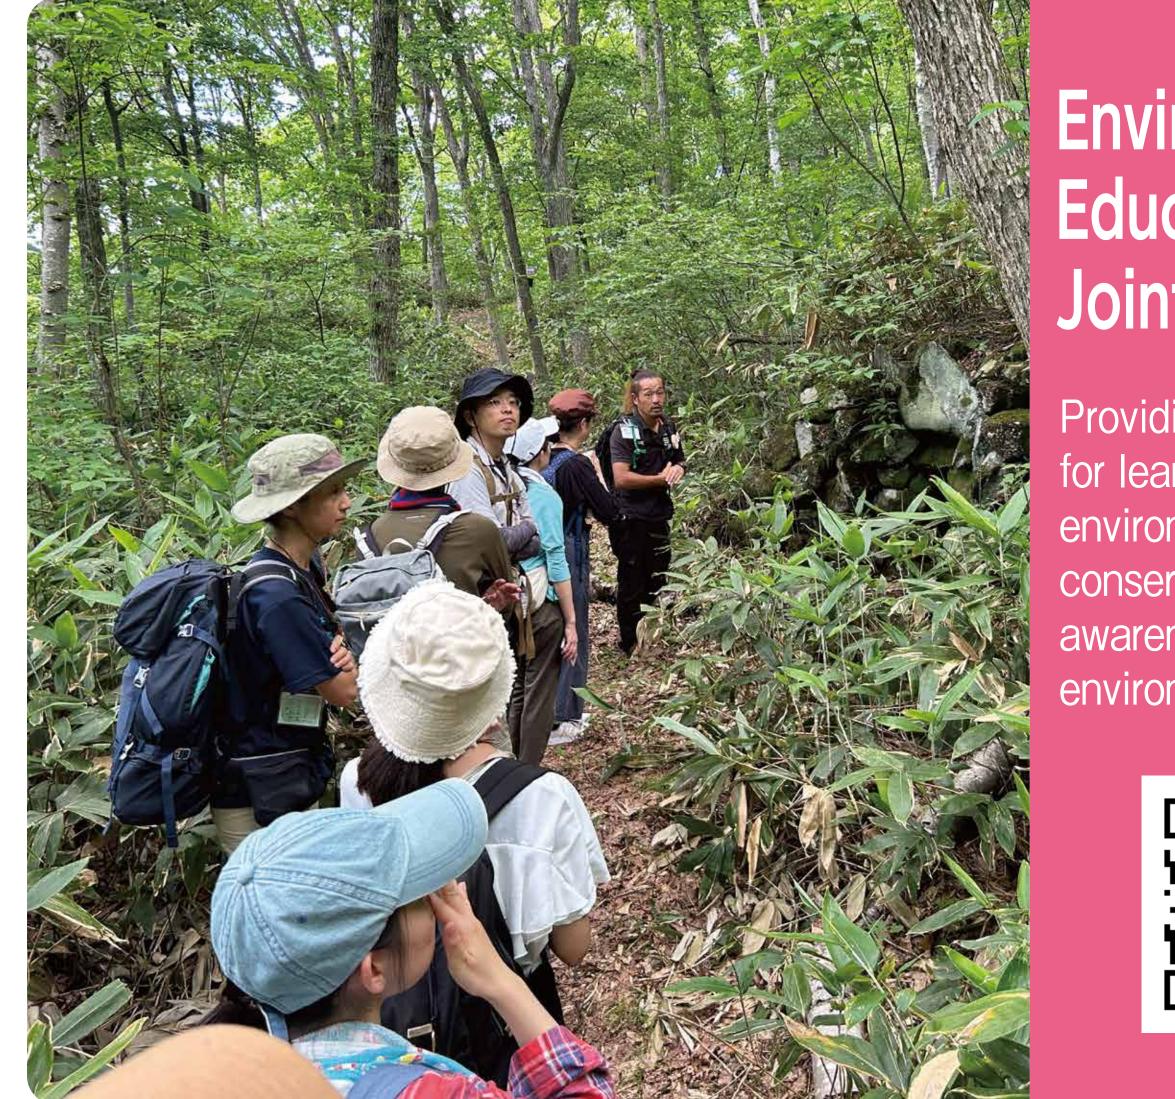

### Environmental **Grant Program**

Providing grants to non-profit organizations engaged in environmental activities

Environmental **Education and** Joint Research

Providing opportunities for learning more about environmental conservation to raise awareness about the environment

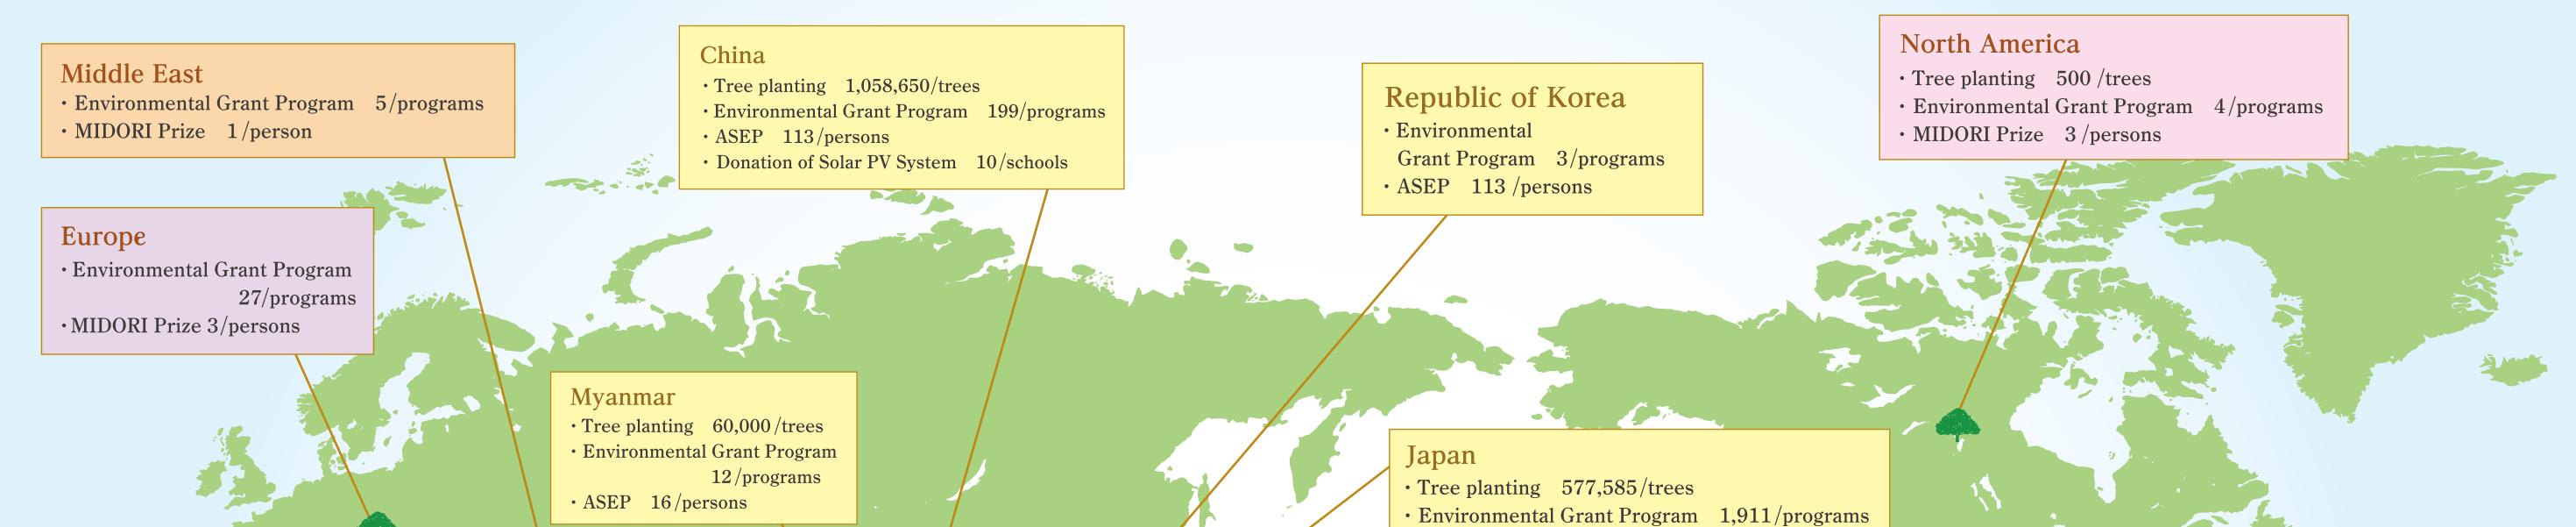

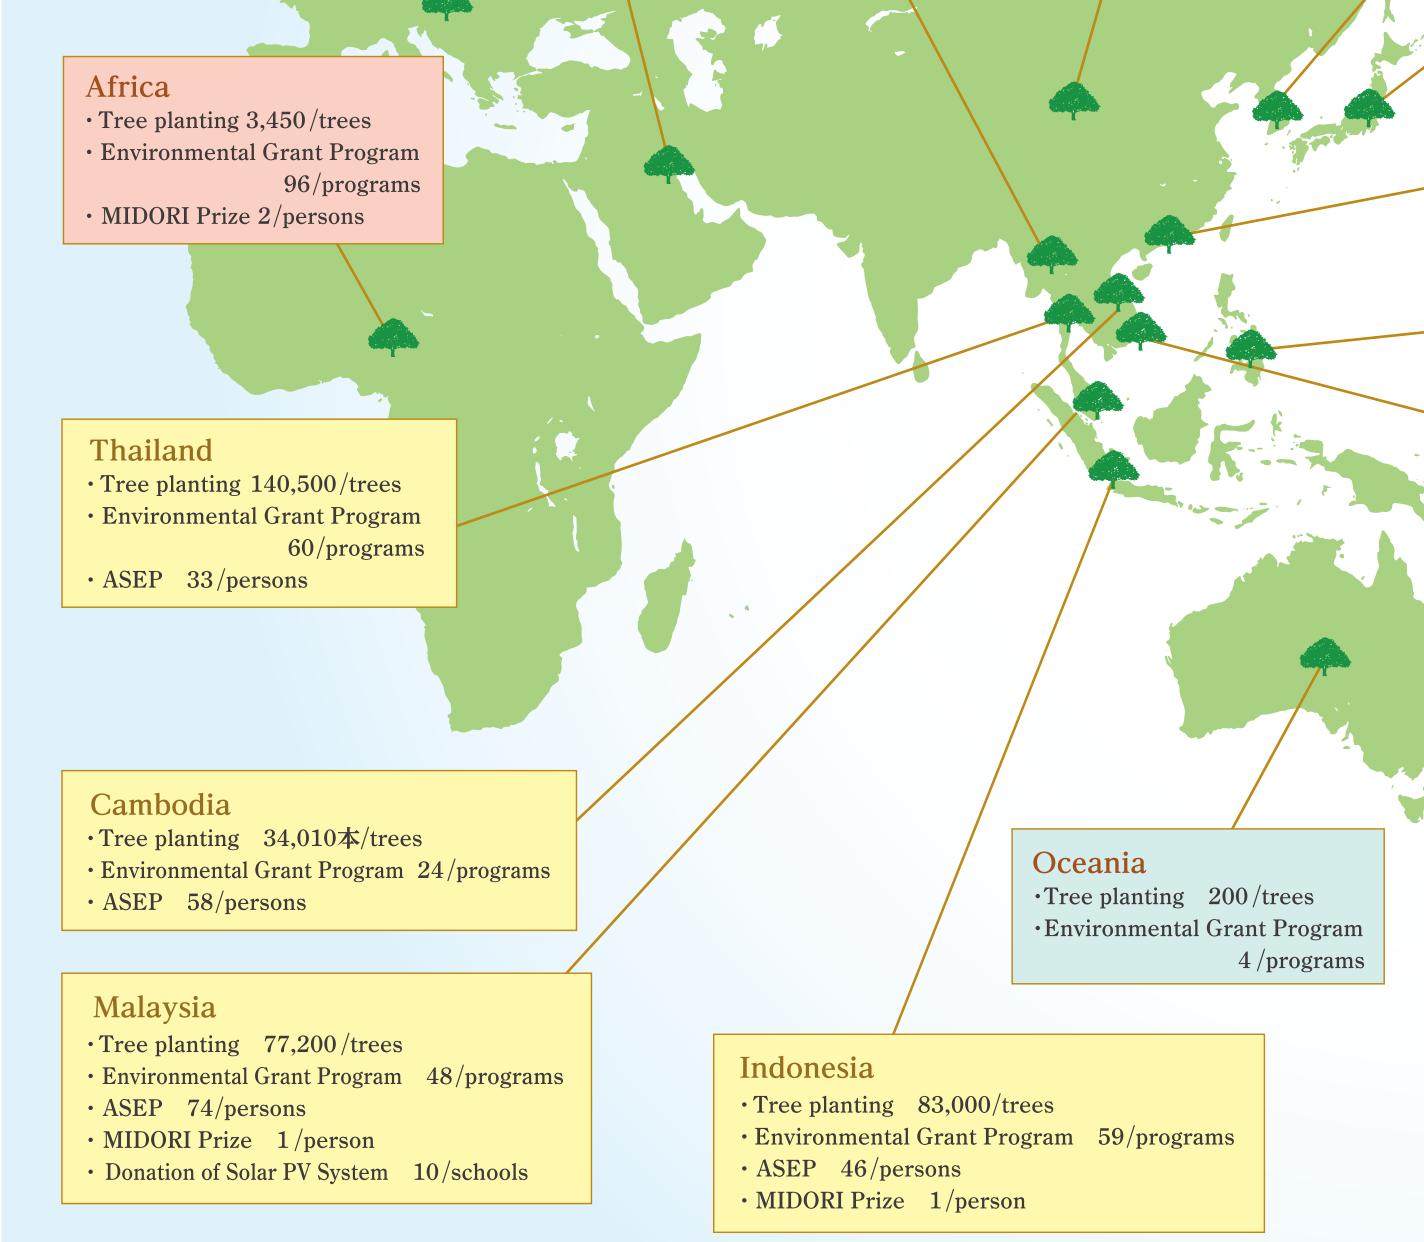

to address environmental challenges
